📁 Project Portfolio

PROFESSIONAL SUMMARY

Senior Software Engineer with 3+ years of expertise delivering scalable web applications and enterprise solutions. **Proven impact:** 40% efficiency improvements, 99.9% system uptime, and 60% faster deployments through modern DevOps practices. Specialized in PHP (Laravel), Python (Flask/Django), JavaScript (Vue.js/Next.js) with extensive experience in microservices architecture, API development, and legacy system modernization. Led cross-functional teams across startup and enterprise environments, with expertise in cloud deployment (AWS/Azure) and comprehensive CI/CD implementation.

Strong background in database optimization, cloud deployment (AWS/Azure), and DevOps practices including CI/CD implementation. Experienced in both startup and enterprise environments with expertise in legacy system modernization, cross-functional team collaboration, and delivering solutions that serve 1000+ daily users.

CORE TECHNICAL SKILLS

Languages & Frameworks

PHP (Laravel), JavaScript/TypeScript (React, Next.js, Vue.js), Python (Flask, Django), C/C++, Node.js

Database & Infrastructure

MySQL, PostgreSQL, Oracle DB, AWS, Docker, CI/CD, RESTful APIs, Microservices

Specialized Systems

Embedded Systems, POS Terminal Development, Payment Integration, Banking APIs, Real-time Processing

PROFESSIONAL EXPERIENCE

Software Engineer

Networld Technology Limited, Gulshan Ave, Dhaka

October 2022 - Present (2+ years)

- Designed and developed microservices-based Reconciliation System using Python (Flask) and Electron.js, achieving 40% improvement in transaction processing efficiency
- Maintained and optimized legacy .NET banking applications (IMS), reducing system downtime by 25% through proactive performance enhancements
- Led full-stack Laravel applications deployment on IIS servers with 99.9% uptime, managing complete project lifecycles
- Implemented robust CI/CD pipelines, reducing deployment time by 60% and ensuring automated testing protocols

Full Stack Developer (Remote)

Walkinroom, London, UK

April 2022 - September 2022 (6 months)

- Developed comprehensive hotel booking platform using Laravel and Tailwind CSS, serving 1000+ daily users
- Optimized MySQL database schemas achieving 30% performance improvement in booking operations
- Established code review processes and coding standards, reducing bug reports by 35%
- Collaborated with international UI/UX teams to deliver responsive, user-focused solutions

KEY PROJECTS & CONTRIBUTIONS

38+ documented projects available in portfolio

Sharothee Wedding Platform

TypeScript, Next.js, MySQL

Bilingual wedding management platform with RSVP system, real-time notifications, and media galleries. Deployed at arvinwedsincia.com with 1000+ guest interactions.

GitHub

SR600Mini POS Terminal

C, Embedded Systems

Commercial POS firmware for dual-screen terminals. Optimized transaction processing with structured UI components and memory-efficient display logic (410MB codebase).

GitHub

SaaS E-commerce Backend

Laravel, MySQL, REST APIs

Multi-tenant e-commerce platform with payment integration, inventory management, and scalable API architecture for high-volume operations.

GitHub

NSU eKYC Verification System

Laravel, APIs, Security

Student identity verification platform with banking/healthcare API integrations. Secure document processing and compliance reporting features.

GitHub

GitHubReadTool Portfolio Generator

Node.js, GitHub API

Automated portfolio generation toolkit that analyzes 37+ repositories, filters meaningful contributions, and generates documentation with resume integration.

GitHub

Digital Product Marketplace

PHP, MySQL, Payment APIs

Full-featured digital marketplace with user management, payment processing, product catalog, and comprehensive analytics dashboard.

GitHub

EDUCATION

Master of Science in Computer Science & Engineering (MSCSE)

North South University, Basundhara, Dhaka

2023 - Present

Bachelor of Science in Computer Science and Engineering (BSCSE)

North South University, Basundhara, Dhaka

2018 - 2022

PROFESSIONAL CERTIFICATIONS

Oracle Cloud Infrastructure 2023 Solution Engineer Specialist

Learning Path, 2h:47m

Oracle Database 19c - Introduction to SQL

40 Hours Certification

Oracle Cloud Infrastructure 2023 Sales Specialist

Learning Path, 3h:07m

Oracle Exadata Solutions Engineer Specialist

Learning Path, 1h:39m

ADDITIONAL INFORMATION

Senior Member - ACM Student Chapter

North South University Operations

March 2018 - November 2021

- Organized technical events, workshops, and programming competitions for 200+ students
- Mentored junior students in programming and software development best practices

Languages: English (Professional), Bengali (Native)
Interests: System Architecture, Microservices, ML, Cloud Computing
Portfolio: 38+ projects at [docs/projects/](#)
GitHub: Active contributor with comprehensive portfolio
Status: Open to senior software engineering opportunities
